

Advanced PHYSICAL COMEDY Workshop

3 days

Teacher: Hilary Chaplain (New York City)
Clown – Actress – Director – Teacher

Directed to experienced performers.

This class is for experienced performers of any genre, with a concentration in clown. We will cover many areas of physical comedy techniques and will apply them in creating short numbers looking at both the simplicity and the complexity of what it means to incorporate physical comedy into our work. Each participant will have the opportunity to present a short piece (1 – 2 minutes) from their own work for critique and development.

As in the beginner's class we will develop tools to use in playing comedy by exploring the technique and use of slapstick, improvisation, partnership, comic timing, and accidents in solo, duo and group exercises.

Working elements:

Comfortable clothing

Duration:

Saturday, December 5th, 12 - 4 pm

Sunday, December 6th, 12 - 7 pm (one hour break)

Monday, December 7th, 12 - 7 pm (one hour break)
